

DYEMANSION STRENGTHENS MARKET POSITION IN THE ASIAN-PACIFIC REGION WITH FIRST AUTHORIZED RESELLER IN CHINA

LTR: Kai Witter, Chief Customer Officer (DyeMansion), Ziqiang Liu, CEO (YUNS), Jingyi Yuan-Steiner, Director APAC (DyeMansion) at the DyeMansion HQ in Germany

After initial activities in the APAC region, DyeMansion, world market leader in Additive Manufacturing finishing systems expands global partner network by appointing YUNS as their first authorized reseller in China. Together, DyeMansion and YUNS will be exhibiting at TCT Shenzhen 2019 and are able to serve customers locally in China's two fastest growing 3D-printing regions as of now.

DyeMansion press release, 29.08.19

12.08.19 Munich - The common goal of YUNS and DyeMansion is clear: Bringing proper industrial 3D-printing technology and knowledge to the world's largest manufacturing hub in order to increase the number of AM applications and to be able to serve customers locally.

"We are excited to announce YUNS as our first authorized reseller in China. China is the largest manufacturing hub in the world with strong market potential. Together with YUNS, we will collaborate with our Chinese customers to unlock more benefits of Additive Manufacturing by identifying increased applications across different industries.", says Jingyi Yuan-Steiner, Director APAC at DyeMansion

OFFERING A COMPREHENSIVE AM VALUE CHAIN TO THE CHINESE MARKET TO INCREASE THE NUMBER OF 3D-PRINTED PRODUCTS

Enabling high-value applications with industrial 3D-printing in China is only possible by considering the complete AM value chain and getting involved in the local circumstances. The ability to offer all proper equipment needed locally is a huge market accelerator and premise, therefore. DyeMansion technology covers all post-processing steps after the part production itself and plays a crucial role when it comes to fine tuning and adding value to 3D-printed plastics. By extending their portfolio with the DyeMansion post-processing equipment, YUNS will be able to offer Chinese customers a comprehensive end-to-end solution for producing high-quality products with Additive Manufacturing as of now.

"As a supplier of the whole 3D-printing industry chain, YUNS is very honored to be the first reseller of DyeMansion in China. We will cooperate fully with DyeMansion to provide a complete set of 3D-printing post-processing solutions for Chinese customers. In the Chinese market, we will develop more applications with our customers.", says Ziqiang Liu, CEO at YUNS

PROVIDING LOCAL CUSTOMER SERVICE AND TECHNICAL SUPPORT IN CHINA'S FASTEST GROWING 3D-PRINTING REGIONS

Two DyeMansion Print-to-Product workflows, including a DyeMansion Powershot C for powder removal, a DyeMansion Powershot S for mechanical surface treatment (PolyShot Surfacing) and a DM60 coloring system will be installed onsite in China's fastest growing 3D-printing regions around Shanghai and Shenzhen. After a

DYEMANSION ON WECHAT

Besides the existing social media channels LinkedIn, Facebook, Twitter and Youtube, as of today, DyeMansion is also present on WeChat for Chinese customers.

ABOUT DYEMANSION

The Munich-based company was founded in 2015 and offers a variety of high-volume finishing systems for an easy Print-to-Product workflow that transforms raw, 3D-printed parts into high-value consumer and industrial products. With the ability to provide precision coloring and finish to the most exact specifications, DyeMansion technology is already trusted by more than 600 customers worldwide, including leading global manufacturers in diverse industries, such as eyewear, automotive, retail, medical, and sports equipment. That's why DyeMansion has quickly established itself as the global leader in Additive Manufacturing finishing
